

YOURS FOR LIFE, RESPECT IT

Water

Spot the dangers

Water may look safe but it can be dangerous. Learn to spot the dangers.

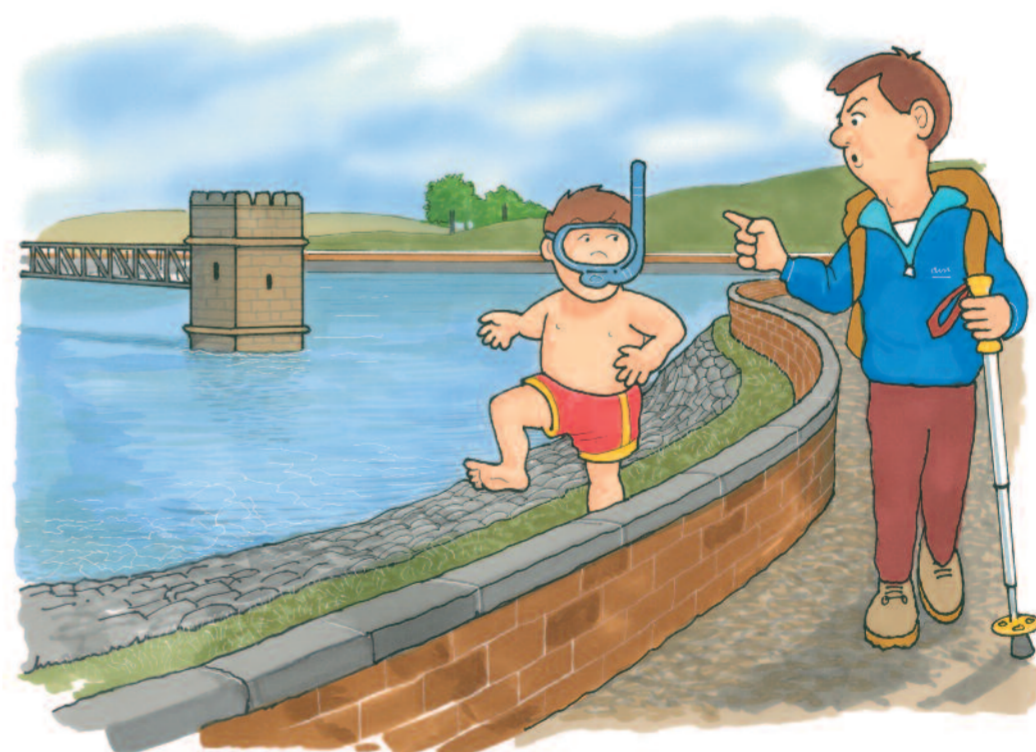

Take safety advice

Never go into water without advice. Special flags and notices may warn you of danger; know what they mean.

Don't go it alone

All open water can be dangerous. Never go into any open water alone. Every reservoir has specific dangers. Never swim in a reservoir.

Learn how to help

Know what to do in an emergency. You may be able to help others, but don't put yourself in danger. Call 999 for the emergency services.

SwimSafe! Don't be a fool! Swim at the pool!
